3. The work proposed under this Agreement, hereinafter referred to as the "Project", consists of the design and construction of sidewalks, curbs and gutters at the intersections along 67th Avenue between Glendale Avenue and Orangewood Avenue. The State will advertise, bid, award and administer the scoping, design and construction of the Project. The plans, estimates and specifications for the Project will be prepared and, as required, submitted to Federal Highway Administration (FHWA) for approval.

5. The interest of the State in this Project is the acquisition of federal funds for the use and benefit of the City and the authorization of such federal funds for the Project pursuant to federal law and regulations. The State shall be the designated agent for the City for the Project, if the Project is approved by FHWA and funds for the Project are available. The Project will be performed, completed, accepted and paid for in accordance with the requirements of the Project specifications and terms and conditions.

6. The Parties will perform their responsibilities consistent with this Agreement; any change or modification to the Project will only occur with the mutual written consent of both Parties.

II. SCOPE OF WORK

1. The State will:
 - a. Execute this Agreement, and if the Project is approved by FHWA and funds for the Project are available, be the City's designated agent for the Project.
 - b. Execute this Agreement, and prior to performing or authorizing **any** work, invoice the City for the City's share of the Project design costs, estimated at **\$11,115.00**. If PMDR costs increase during the development of design, invoice the City in increments of \$5,000.00 to cover the City's share of additional PMDR costs. Once the costs have been finalized, the State will either invoice or reimburse the City for the difference between estimated and actual PMDR and design costs.

- c. After receipt of the City's estimated share of the Project design costs, on behalf of the City, prepare and provide all documents pertaining to the design and post-design of the Project, incorporating comments from the City, as appropriate; and review and approve documents required by FHWA to qualify the Project for and to receive federal funds. Such work may consist of, but is not specifically limited to, preparation of environmental documents; analysis and documentation of environmental categorical exclusion determinations; geologic materials testing and analysis; right-of-way related activities; preparation of reports, design plans, maps, specifications and cost estimates and such other related tasks essential to the achievement of the objectives of this Agreement.
- d. Submit all required documentation pertaining to the Project to FHWA with the recommendation that the maximum federal funds programmed for this Project be approved for scoping/design. Upon authorization, proceed to advertise for and enter into contract(s) with the consultant(s) for the design and post design of the Project.
- e. After completion of design and prior to bid advertisement, invoice the City for the City's share of the Project construction costs, estimated at **\$147,025.00**. Once the Project costs have been finalized, the State will either invoice or reimburse the City for the difference between estimated and actual costs; and de-obligate or otherwise release any remaining federal funds from the scoping/design phase of the Project.
- f. After receipt of the City's estimated share of the Project construction costs, submit all documentation required to FHWA with the recommendation that funding be approved for construction and request the maximum federal funds programmed for the construction of this Project. Should costs exceed the maximum federal funds available, it is understood and agreed that the City will be responsible for any overage.
- g. With FHWA authorization, proceed to administer construction, advertise for, receive and open bids, award and enter into a contract with the firm for the construction of the Project. If the bid amounts exceed the construction cost estimate, obtain City concurrence prior to awarding the contract. Once awarded, invoice the City for the difference between estimated and actual costs, if applicable.
- h. Be granted, without cost requirements, the right to enter City right-of-way as required to conduct any and all construction and pre-construction related activities for said Project, including without limitation, temporary construction easements or temporary rights of entry on to and over said rights-of-way of the City.
- i. Enter into an agreement with the design consultant which states that the design consultant shall provide professional post-design services as required and requested throughout and upon completion of the construction phase of the Project. Upon completion of the construction phase of the Project, provide an electronic version of the record drawings to the City.
- j. Notify the City that the Project has been completed and is considered acceptable, coordinating with the City as appropriate to turn over full responsibility of the Project improvements. De-obligate or otherwise release any remaining federal funds from the construction phase of the Project within 90 days of final acceptance.
- k. Not be obligated to maintain said Project, should the City fail to budget or provide for proper and perpetual maintenance as set forth in this Agreement.

2. The City will:
 - a. Designate the State as the City's authorized agent for the Project.
 - b. Within 30 days of receipt of an invoice from the State pay the City's Project design costs, estimated at **\$11,115.00**. If, during the development of design, additional funding to cover PMDR costs is required, pay the invoiced amount to the State within 30 days of receipt. Be responsible for any difference between the estimated and actual PMDR and design costs of the Project.
 - c. Review design plans, specifications, cost estimates and other such documents required for the construction bidding and construction of the Project, including scoping/design plans and documents required by FHWA to qualify projects for and to receive federal funds; provide design review comments to the State as appropriate.
 - d. After completion of design, within 30 days of receipt of an invoice from the State and prior to bid advertisement, pay to the State, the City's Project construction costs, estimated at **\$147,025.00**. Once the Project costs have been finalized, the State will either invoice or reimburse the City for the difference between estimated and actual costs; de-obligate or otherwise release any remaining federal funds from the scoping/design phase of the Project.
 - e. Be responsible for all costs incurred in performing and accomplishing the work as set forth under this Agreement, that are not covered by federal funding. Should costs be deemed ineligible or exceed the maximum federal funds available, it is understood and agreed that the City is responsible for these costs, payment for these costs shall be made within 30 days of receipt of an invoice from the State.
 - f. Certify that all necessary rights-of-way have been or will be acquired prior to advertisement for bid and that all obstructions or unauthorized encroachments of any nature, either above or below the surface of the Project area, shall be removed from the proposed right-of-way or will be removed prior to the start of construction, in accordance with The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 as amended; 49 CFR 24.102 Basic Acquisition Policies; 49 CFR 24.4 Assurances, Monitoring and Corrective Action, parts (a) & (b) and ADOT ROW Manual: 8.02 Responsibilities, 8.03 Prime Functions, 9.06 Monitoring Process and 9.07 Certification of Compliance. Coordinate with the appropriate State's Right-of-Way personnel during any right-of-way process performed by the City, if applicable.
 - g. Not permit or allow any encroachments upon or private use of the right-of-way, except those authorized by permit. In the event of any unauthorized encroachment or improper use, the City shall take all necessary steps to remove or prevent any such encroachment or use.
 - h. Grant the State, its agents and/or contractors, without cost, the right to enter City rights-of-way, as required, to conduct any and all construction and preconstruction related activities, including without limitation, temporary construction easements or temporary rights of entry to accomplish among other things, soil and foundation investigations.
 - i. Be obligated to incur any expenditure should unforeseen conditions or circumstances increase Project costs. Be responsible for the cost of any City requested changes to the scope of work of the Project, such changes will require State and FHWA approval. Be responsible for any contractor claims for additional compensation caused by Project delay attributable to the City. Payment for these costs will be made to the State within 30 days of receipt of an invoice from the State.

- j. Upon notification of Project completion, agree to accept, maintain and assume full responsibility of the Project and all Project components in writing.

III. MISCELLANEOUS PROVISIONS

1. The terms, conditions and provisions of this Agreement shall remain in full force and effect until completion of the Project and all related deposits and/or reimbursements are made. Any provisions for maintenance shall be perpetual, unless assumed by another competent entity. This Agreement may be cancelled at any time prior to the award of the Project construction contract, upon 30 days written notice to the other party. It is understood and agreed that, in the event the City terminates this Agreement, the City will be responsible for all costs incurred by the State up to the time of termination. It is further understood and agreed that in the event the City terminates this Agreement, the State shall not be obligated to complete and/or maintain the Project.
2. The City shall indemnify, defend, and hold harmless the State, any of its departments, agencies, officers or employees (collectively referred to in this paragraph as the "State") from any and all claims, demands, suits, actions, proceedings, loss, cost and damages of every kind and description, including reasonable attorneys' fees and/or litigation expenses (collectively referred to in this paragraph as the "Claims"), which may be brought or made against or incurred by the State on account of loss of or damage to any property or for injuries to or death of any person, to the extent caused by, arising out of, or contributed to, by reasons of any alleged act, omission, professional error, fault, mistake, or negligence of the City, its employees, officers, directors, agents, representatives, or contractors, their employees, agents, or representatives in connection with or incident to the performance of this Agreement. The City's obligations under this paragraph shall not extend to any Claims to the extent caused by the negligence of the State, except the obligation does apply to any negligence of the City which may be legally imputed to the State by virtue of the State's ownership or possession of land. The City's obligations under this paragraph shall survive the termination of this Agreement.
3. The State shall include Section 107.13 of the 2008 version of the Arizona Department of Transportation Standard Specifications for Road and Bridge Construction, incorporated to this Agreement by reference, in the State's contract with any and all contractors, of which the City shall be specifically named as a third-party beneficiary. This provision may not be amended without the approval of the City.
4. The cost of scoping, design, construction and construction engineering work under this Agreement is to be covered by the maximum available amount of federal funds programmed for this Project. The City acknowledges that the actual costs may exceed the maximum available amount of federal funds, or that certain costs may not be accepted by the federal government as eligible for federal funds. Therefore, the City agrees to pay the difference between actual Project costs and the federal funds received.
5. Should the federal funding related to this Project be terminated or reduced by the federal government, or Congress rescinds, fails to renew, or otherwise reduces apportionments or obligation authority, the State shall in no way be obligated for funding or liable for any past, current or future expenses under this Agreement.
6. The cost of the Project under this Agreement includes indirect costs approved by FHWA, as applicable.
7. The Parties warrant compliance with the Federal Funding Accountability and Transparency Act of 2006 and associated 2008 Amendments (the "Act").
